**REASON FOR TODAY'S CALL:**

We would like to remove the old kitchen faucet and install the new Delta Trinsic Kitchen Single Handle Pull Down Standard Kitchen Faucet.

**DESCRIPTION OF WORK PERFORMED:**

The shut off valves under the sink (connected to the faucet) were not functioning. I repaired these valves by replacing the washers, stems, packing, packing nuts, and handles. After repairing the valves I flushed out the lines and installed the customer supplied kitchen faucet. Tested and in good working order.

**TECHNICIAN RECOMMENDATIONS:**

During testing I noticed the garburator has a crack in the housing. This should be replaced as it will eventually start to leak.
