REASON FOR TODAY'S CALL:

The drainage of the toilet WC is a little slow and needs to be plunged a few times. The water does drain after a couple of plunges and after pouring water into the WC.

DESCRIPTION OF WORK PERFORMED:

-I used the 6' toilet auger to clear the toilet blockage. Tested by flushing large rolled up balls of paper towel. Nothing was pulled out of the toilet, whatever caused the blockage was pushed through and flushed away. -I adjusted the flapper float to allow for more water per flush and mitigate the chances of further clogging. -The shut off valve was leaking from the stem. I tightened the packing nut which was loose and this stopped the leak. I have suggested keeping a container under the valve for one week to ensure the leak has fully subsided.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Clear toilet blockage using 6' toilet auger	\$139.00	\$139.00
			SUBTOTAL:	\$139.00
			GST (5%):	\$6.95
			TOTAL:	\$145.95
