REASON FOR TODAY'S CALL:

12 things. One is the garden faucet and it cannot be turned on. Two is my shower and it cannot be turned on as well.

DESCRIPTION OF WORK PERFORMED:

---Master Bathroom: The knob for the wall shower spray was not turning at all. I removed the knob and used pliers to see if I could get the cartridge stem to turn. with only a little force I was able to get the cartridge stem to turn and it now seems to be turning on/off just fine. I reinstalled the knob and tested. ---Hoesbib: The hosebib has been broken internally and unfortunately the only way to fix this would be to open up the wall in behind the hosebib and replace the entire unit. I have given a recommendation of a company that can perform this task.
