REASON FOR TODAY'S CALL:
lav faucet leaking kitchen faucet leaking from sides

DESCRIPTION OF WORK PERFORMED:
 ---Kitchen Faucet: The faucet was leaking from cracks in the spray head. This model has caused a few leaks in this building in the past and I believe a notice was sent out by the strata to owners some time ago recommending replacement over repair. The shut off valves under the sink we're not functioning, before replacing the faucet I first had to repair these valves by replacing the washers, stems, packing, packing nuts, and handles. I then replaced the faucet with a new Mainline pullout faucet and tested. ---Lavatory Faucet: The cartridge within the faucet was cracked, allowing water to trickle through even when the faucet was turned fully off. I replaced this cartridge with new(K35B) and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
