REASON FOR TODAY'S CALL:

Slow water leak from garbage disposal. It's a slow leak, only happens when water goes down the sink, and looks like it's dripping out of the bottom of the motor unit.

DESCRIPTION OF WORK PERFORMED:

The garburator was leaking straight through the unit, out of the bottom. I replaced the garburator with a new Badger5 and tested by filling and draining the sink multiple times while running the garburator.
