REASON FOR TODAY'S CALL:

The garbage disposal unit stops working. When I turn on the switch, the motor doesn't rotate at all. I check the plug and have not found any problem of electrical connection. I never use it to deal with heavy waste and I guess the problem should be the switch rather than the garburator. *call at 2:45pm to remind of appointment.

DESCRIPTION OF WORK PERFORMED:

I was able to unjam the garburator by removing what appeared to be a pit of some kind. Tested by filling and draining the sink multiple times while running the garburator.
