REASON FOR TODAY'S CALL:

New laundry machine installed: I don't have the proper tool to dislodge the old hoses, and they seems to be stuck. Washer is in place already, delivery guys attached the hose to the washer. I managed to open the door to the shut off valve earlier this afternoon, but I am having trouble shutting off the hot water valve.

DESCRIPTION OF WORK PERFORMED:

I removed the old laundry hoses from the shut off valves and attached the new ones. Tested and no leaks present.
