REASON FOR TODAY'S CALL:

1. Bathtub is plugged - probably hair 2. Toilet is not flushing. The handle lost it's connection with the chain or something like that. The handle is loose. 3. sink faucet needs to be tightened

DESCRIPTION OF WORK PERFORMED:

-I used the PowerSpin drain snake to clear hair from the guest bathroom tub. Tested by filling the tub 8? and draining. -The master bathroom toilet was missing the nut that secures the lever, as well as the clip that attaches the lever handle to the flushvalve cylinder. I was able to find these parts in the van, installed and tested. - The master lavatory faucet requires parts that would have to be special ordered from Kohler. The home owner has decided to hold off on this repair.
