REASON FOR TODAY'S CALL:

I need my kitchen and bathroom faucets replaced. The Kitchen faucet recently stopped working and the bathroom sink faucet just needs updating. I've purchased the replacements. Also, shortly following the replacement of my Insinkerator garbage disposal, my Samsung dishwasher stopped working and the error codes show that there is an issue with the water flow. If someone could look into that also, that would be great. Lastly, I would like the toilet seat removed as it seems to be rusted on.

DESCRIPTION OF WORK PERFORMED:

-I installed the customer supplied kitchen faucet and tested. -I installed the customer supplied lavatory faucet and drain. Tested by filling and draining the sink multiple times. -I installed the new toilet seat. -The garburator drain plugged was not the issue causing the error message. I've suggested calling an appliance repairman to inspect.
