REASON FOR TODAY'S CALL:  
 Toilet clogged/overflowed Del(building manager): 604.719.1223 604.899.8869

DESCRIPTION OF WORK PERFORMED:  
 When I arrived onsite the toilet's water supply was turned off and the tank was empty. I turned the water supply to the toilet on and could see that it was still clogged. I used the toilet plunger onsite to clear the blockage and tested by flushing large rolled up balls of toilet paper with no signs of clogging. The toilet was flushed roughly 20 times and I made sure to flush it in different ways trying to recreate whatever issue caused it to continuously run but could not. The toilet is flushing normally and no matter what I tried it would not run.
