REASON FOR TODAY'S CALL:

-The faucet on our bathroom sink is dripping. The tap for the hot water seems to be out of alignment or something - if we turn it all the way off it drips a lot, but if we turn it back towards the "on" position a bit, it drips less. -The garburator doesn't seem to be working again even when we try to reset it (you came and fixed it for us previously) We don't really use the garburator so we wouldn't be bothered by it not working, however this sink seems to be back up with water a lot and does not drain well - we are looking for a solution to this problem to help the sink drain better. Not sure if it might be helpful to remove the garburator and if this is a possibility?

DESCRIPTION OF WORK PERFORMED:

-I removed the garburator, installed a basket strainer in it's place, and repiped the ABS drainage. Tested by filling and draining the sink multiple times. -I installed the 2 Customer Supplied lavatory faucet cartridges and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Delete Garburator & Re-Pipe ABS Drainage	\$219.00	\$219.00
1		Install Riobel Cartridges	\$20.00	\$20.00
			SUBTOTAL:	\$239.00
			GST (5%):	\$11.95
			TOTAL:	\$250.95
