REASON FOR TODAY'S CALL:
 Kitchen pipe has some leaking problem. Just need a quick check for my dishwasher which has never been used. Since the property will be rent out, I want to make sure everything at kitchen is working normally. Thx

DESCRIPTION OF WORK PERFORMED:
 -The kitchen sink tailpiece was not long enough to reach the slipjoint adaptor on the trap arm. I raised the trap arm height using a Fernco coupling. Tested by filling and draining the sink multiple times. -I removed the dishwasher kickplate and ran the machine through a few fill & drain cycles. No leaks were detected under the machine or inside the cabinet below the sink.
