REASON FOR TODAY'S CALL:

The piping leading from the in-sink disposal is broken where it meets the pipe coming from the sink.

DESCRIPTION OF WORK PERFORMED:

The ABS drainage dropped down and detached from the garburator drain 90. I raised the drainage back up, replaced a warm slipjoint beveled washer at the drain 90 connection, and used metal strapping to secure the drainage as high as it will go to mitigate the chances of this happening again.
