REASON FOR TODAY'S CALL:  
 The water is backed up when my washing machine is draining. The drain is going into the wall, not a sink, so I can't see where it's clogged..

DESCRIPTION OF WORK PERFORMED:  
 I used the PowerSpin drain snake to clean the laundry drain. Tested by running the laundry machine through multiple fill & drain cycles. I noticed a very slow drip coming from the stem of the Cold shut off valve handle. I tightened the packing nut which stopped the drip.
