REASON FOR TODAY'S CALL:

My sink is leaking. Underneath. Tried buying new piping and fixed it for a bit, however, it started leaking again. Tried tightening screws, checking washers, etc still leaking. It looks like it is a connection but I can't figure it out.

DESCRIPTION OF WORK PERFORMED:

Lara purchased and installed a universal replacement kitchen faucet spray hose. A washer in one of the connections was torn. I replaced this washer, tested and in good working order with no other signs of leaking.
