REASON FOR TODAY'S CALL:
 The toilets in both washrooms are leaking. It looks like the water is coming from the pipe close to shut off valve.

DESCRIPTION OF WORK PERFORMED:
 ?Guest Bathroom: The leak was coming from the bottom of the fillvalve where it passes through the bottom of the toilet tank. I replaced the fillvalve, flapper, and supply line, tested and in good working order. ?Master Bathroom: I tested the toilet but was not able to recreate any leaking. Jessi mentioned that the leak is intermittent, I suggested that it could be an issue with the shower splashing out onto the floor on some showers and suggested keeping an eye on this and if water is noticed on the floor again to check whether it corilates with a recent shower.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Toilet FillValve, Flapper, Supply - Standard	\$169.00	\$169.00
SUBTOTAL:			\$169.00	\$169.00
