REASON FOR TODAY'S CALL:
Shower handle is getting loose again.

DESCRIPTION OF WORK PERFORMED:
 --Jan17: I made another visit and retightened the loose screw. The valve is installed a little too far in behind the tile so the original installers had to use an extension kit. I will have to see about ordering a new extension kit and trim(no charge for this visit). ?Feb5: I returned with the new Moen trim and extension kit, installed and tested. During testing I noticed the mixing cartridge would actually leak if pressure was applied up or down. On the previous visit I was unable to free up the seized Cold integral stop but luckily with a little elbow grease I was able to free it up this time. I replaced the mixing cartridge within the valve and tested again. No other leaks detected and new trim and extension are secure.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$129.00	\$129.00
1		Moentrol Valve Trim	\$50.00	\$50.00
1		Moentrol 1" Handle Ext Kit	\$55.00	\$55.00
1		Replace Moen Mixing Cartridge	\$50.00	\$50.00
