REASON FOR TODAY'S CALL:

Hello. I have a few plumbing issues that I would like to address. 1. Toilet is very slow to refill after flushing. Takes a good 15 minutes. I was able to speed things up by closing the valve under the toilet and opening it again, but this does not work any more. 2. The bathroom sink needs to be 'snaked' or something. It is still letting water through, but is more or less plugged up. Drains did not work. 3. The kitchen sink (or one of the pipe from the faucet) is leaking a relatively small amount of water. 4. The shower drain could also use 'snaking'. It is a minor problem and Drains has worked in the past, but I figure might as well clean it properly.

DESCRIPTION OF WORK PERFORMED:

Unit 903: -I replaced the toilet FillValve and supply line. Tested and in good working order. -I used the PowerSpin drain snake to clean the tub and lavatory drains.
 Unit 4002: I used the PowerSpin drain snake to clean the tub and shower drains. I could not get the kitchen faucet to leak. But there was a leak coming from a loose connection on the right sink basket strainer. I tightened this loose connection and tested by filling the sink 6? and draining.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace toilet FillValve - standard	\$159.00	\$159.00
2		PowerSpin - Drain Cleaning Add-On	\$50.00	\$100.00
			SUBTOTAL:	\$259.00
			GST (5%):	\$12.95
			TOTAL:	\$271.95
