PHONE 604.812.6156		EMAIL lotzkarj@gmail.com	

REASON FOR TODAY'S CALL:
my garburator drain is blocked and not working.

DESCRIPTION OF WORK PERFORMED:
-I was able to unjam the garburator and tested by filling and draining the sink multiple times while running the garburator. Nothing was pulled out of the garburator grinding chamber, it was likely rust buildup from extended periods of non use. I've suggested running the garburator more regularly to mitigate the chances of rust buildup in the future. -While onsite it was mentioned the lavatory sink was draining slowly. I was able to remove some hair from the top of the drain and tested by filling and draining multiple times.
