REASON FOR TODAY'S CALL:

Leak under bathroom sink can't tell if it is coming from drain or not. Aerator is not attached properly. I have several times open throughout the week and a phone call to set up an earlier time than Friday would be appreciated.

DESCRIPTION OF WORK PERFORMED:

-I removed and reinstalled the aerator and the leaking has subsided. - The nut securing the mechanical drain assembly was loose. I gave this nut I little turn and tested by filling and draining the sink multiple times with no signs of leaking.
