REASON FOR TODAY'S CALL:

Two separate issues: Issue #1: Broken tap (only the tap's handle, otherwise works fine) of bathroom sink. Not sure to what extent a new piece would be necessary. Please see picture. Issue #2: Bad smell comes from garbage disposal system (garburator) in kitchen sink. System works perfectly though.

DESCRIPTION OF WORK PERFORMED:

-I was able to reattach the faucet handle by securing the set screw. -The garburator seemed quite clean inside. I suggested running small pieces of lemon through the garburator with lots of water.
