REASON FOR TODAY'S CALL:

Our bath tub won't drain properly. Even when just having a shower, the water will fill the tub and not drain for hours. And sometimes when it does eventually drain, residue and waste somehow has come back up the drain and is left in the tub. We've tried draino and store-bought drain snakes, but nothing really works. I don't have any recent photos as we've been avoiding using it recently.

DESCRIPTION OF WORK PERFORMED:

I used the PowerSpin drain snake to clear the tub drain blockage and tested by filling the tub 6? and draining.
