REASON FOR TODAY'S CALL:
 Bathroom hot water tap will not shutoff. *Scheduled by Ian(tenant)

DESCRIPTION OF WORK PERFORMED:
 I replaced the hot cartridge in the ensuite bathroom lavatory faucet. During testing I noticed a small leak coming from the cold supply line where it connects to the shut off valve. The nut that secures the supply line was a little loose. I gave it a quarter turn and the leak seems to have subsided. I've asked Ian to keep an eye on this connection to ensure the leak does not return.
