REASON FOR TODAY'S CALL:
 Toilet has weak flush half the time, fine the other half. I believe the flap needs replacing.

DESCRIPTION OF WORK PERFORMED:
 I tested the toilet by flushing large rolled up balls of toilet paper and it appeared to be flushing fine. The flapper chain was broken and it was secured to the lever handle using a safety pin. I replaced the flapper and continued testing. Toilet is in good working order with no signs of leaking or backing up.
