REASON FOR TODAY'S CALL:

Need a replacement Garburator please for our condo . Yaletown installed a Legend Series Waste King 1001 in 2014. Ran into a problem with it last spring - not used as out of province for many months helping with family care and the garburator seized up. Yaletown gave good advice on getting it going at that point, but been away again for extended time and it looks like the garburator has given up the ghost. So maybe a different brand????

DESCRIPTION OF WORK PERFORMED:

-I installed the new customer supplied garburator and repiped the ABS drainage. Tested and in good working order with no signs of leaking. -I used the PowerSpin drain snake to clear a large amount of hair from the tub drain and tested.
