REASON FOR TODAY'S CALL:
Kitchen faucet leaking.

DESCRIPTION OF WORK PERFORMED:
-The leak from the kitchen faucet was coming from the connection between the spray head and spray hose. I tightened this connection and tested. During testing I noticed there was also a leak coming from the garburator that could not be repaired. I replaced the garburator with a new Waste King 1001 and tested by filling and draining the sink multiple times while running the garburator.
